## PROSPECTUS OF THE "NATIONAL MON-UMENT."

A weekly journal to be published in Washington under the sanction of the Washington National Monument Society. JAMES C. PICKETT, EDITOR AND PUBLISHER

Monument Society.

JAMES C. PICKETT, Editor and Publisher.

The Monument is intended to be a literary, agricultural, and miscellaneous paper. It will contain selections of the literature of the day—the best that can be found in American and English publications: interesting scientific articles, embracing mechanics; foreign and dômeatic news; a synopsis of the proceedings of Congress, and every thing that such a journal might be expected to contain, with the exception of party politics, which will be at all times most rigorously excluded.

The Monument will be published for the express and the sole purpose of aiding in the erection of the noble column now rising on the banks of the Potomac, in honor of the Father of his Country, and which every one who venerates the name of Washington would rejoice to see completed. After deducting out of the subscription the expenses of the journal proposed to be published, the remaining funds will be faithfully applied, and without reserve, to the purpose indicated. The aid, therefore, of all who are willing to contribute to so patriotic an object, and one so entirely national, is earnestly requested. By subscribing to the Monument, a valuable journal at a low price may be obtained, while it will be doing something, at the same time, towards completing that majestic memorial of the Nation's gratifude.

The Board of Managers recompend Mr. Pickett, formerly Fourth Auditor of the Treasury and Charge d'Affairs to Peru, who proposes to edit and publish the Monument journal, as one well qualified to perform the duties of editor, and to conduct the paper faithfully, and satisfactorily to the subscribers. They assure their fellow-citizens that this enterprise is not a speculation got up for individual emolument. Mr. Pickett will make the experiment with his own means and at his own risk; if successful, he will receive nothing more, and he asks nothing more, than a very moderate compensation for his services. Not one dollar, therefore, of the direct subscription to the erection of the

Terms.—The Monumers will be printed on a double oval sheet—the paper and type being of the best quality—ind in quarto form, containing sixteen large pages, that may be more easily preserved. The price will be two collars per annum, payable on the receipt of the second number. The nature of the enterprise not admitting of any credit, none can be given.

Societies and clubs will be furnished with the MONUMENT. The fallowing terms. Societies for \$5: 5 conies. \$8: 10.

copies, \$15; &c.
Those who are disposed to patronise the Monument are requested to forward their names to the General Agent, without delay. The first number will be published early in May, and the second on the second day of August, and weekly thereafter; time being allowed for the Prospectus to be circulated, and for the agents to make returns. As all subscribers will be contributors to the Monument itself, their names will be published in the paper. Washingrow, April 23, 1851.

Austin's Magic Freezer,
Through in six minutes. For the preparation of
lee Creams, Water Ices, &c.—Patented September 19, 1848.

tee Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—
Ist. The astonishing rapidity of the process, surpassing belief—hence the name.
2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.
3d. It does not require a tenth part of the labor that the common Freezer does.
4th. It does its work better, producing a better article, in every respect, than by any other mode.
5th. There is a considerable saving in ice, as the tub needs no repleuishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six minutes, I cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons) making from 10 to 50 gallons per day during the season; and so far as regards expedition and power, I consider it decidedly the best freezer now in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus that furnishes ample means of experimental illustration in all the different branches of Natural Philosophy. The sum of three thousand dollars has recently been expended, partly in this country and partly in London and Paris, in the purchase of new apparatus, adapted to the present advanced state of the Physical Sciences.

PAYMINATIONS

EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION. RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testainent. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their fundics, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

Newark Academy.

By a late re-organization of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the amalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not-generally obtained at institutions of this kind. Those who wish to

comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not-generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College course, may be admitted to recite in any of the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College Library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winber Session. The only extras are one dollar per session for incidental expenses, and a fee of fire dollars for Modern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

Newark, Delaware'

WILMINGTON BOARDING SCHOOL FOR BOYS.—This institution is situated in

William Gron Boarding School For Boys.—This institution is situated in one of the healthlest parts of the city of Wilmington, entirely beyond the sottled portions of the town. The uniform healthfulness of the location may be inferred from the fact that, since the establishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chensistry, Physiciogy, History, Rhetoric, the various branches of Mathematics, and the Latin, Greek, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare favorably with any similar one in the countsy. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—
Mr. JAS. L. HAMILTON.—DEAR Siz: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from the use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very aggravated in its character. manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impaired specific, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsia, Chronic Headache, and Sore Throat, in all of which it proved effectious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

J. HOWARD GRIFFITH,

VALUABLE LAW BOOKS. W E invite the attention of the Profession, and others desiring Law Books, to our very extensive stock, which, we believe, contains the best assortment of American Publications in the United States. Particular attention given to furnishing or completing Libraries for the Departments, Associations, and States.

Orders by mail promptly and carefully executed.

English Common Law Reports,

English Common Law Reports,

58 Volumes, with a complete Index to the first 44 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the Eng lish Common Law Reports.

lish Common Law Reports.

By Hon. Großer Sharswood and Großer W. Biddle, Esgrs. 1 vol. 8vo.—\$5 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

New English Ezchequer Reports—Pleas and Equity.

To be reprinted in full, in best style, with American Notes, by J. I. Clark Harr and H. B. Wallace, Esqrs, at \$2.50 per vol., bound.

Including McClelland and Younge, Younge and Jervis, Crompton and Jervis, Crompton and Messon, Crompton, Messon and Roscoe, Messon and Younge and Collyer—in Equity.

Messon and Welsby, in 19 vols., Welsby, Hurlstone and Gordon, vol. 1, published and ready for delivery.

Messrs. T. & J. W. Johnson:

Gentlemen—In reply to your letter, I can with great sincerity say, that I entertain a very high opinion of the recent Exchequer Reports. In my judgment they are not excelled by any cotemporaneous Reports, in learning, ability, or general utility and interest. The cases decided are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem of more importance or value for a Professional Library.

JOSEPH STORY.

Cambridge, January 25, 1845.

Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of this Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them.

I am, gentlemen, very respectfully yours, SIMON GREENLEAF. CAMBRIDGE, January 25, 1845.

Law Library.

Fourth Series—Forty Volumes.

Twelve Dollars a year, bound—Ten Dollars in Numbers.

The cheapest Law Periodical in the United States.

It is our determination to make the Law Library the cheapest series of reprints of English Law publications in this country. The Editorial Department will, we trust, be found fully to realize the expectations of those who have enjoyed Smith's Mercantile Law, Touchstone, Broom's Legal Maxims, Archbold's Nisi Prius, Archbold's Landlord and Tenant, Crabb on Real Proporty, Smith on Contracts.

The high reputation which the "Law Library" has acquired throughout the United States, by the character of its volumes, and by the cheap rate at which its valuable contents have been presented to the Profession, is the best evidence we can offer of its merits and its claims for your support. We hope, and will aim, to retain this high character.

For conveying Passengers to and from Great Britain and Ireland, and remitting money to all parts of England, Fredhand, Scothand, and Wales.

W. & J. T. TAPSCO/TT & CO., 85 George's Buildings, Regent's Road, Liverpool.

In announcing the completion of their arrangements for the present season of emigration, the subscribers beg to assure their friends and public that every effort will be made by them to ensure a continuation of the patronage hitherto so liberally bestowed upon their House; and would carnestly impress on the minds of those wishing to send for their friends in the Old Country, that Mr. William Tapscott will personally superintend the departure of all persons from Liverpool, whose passage may be engaged at their office in New York, or by any of their Agents throughout the United States and Canada. This, they feel assured, is a sufficient guaranty for promptness, and a full security that passengers will be quickly and carefully dispatched. The subscribers are agents for the New Line of Liverpool Packets, viz. "Queen of the West," (Capt. P. Woodhouse; "Sheridan," Captain G. B. Cornish; "Constitution," Captain John Britton; "Garrick," Captain B. J. H. Trask; "Hottinguer," Captain G. B. Cornish; "Constitution," Captain Cobb.

And many other first-class Packets, which this limited space will not admit of enumeration—sufficient in number, however, to despatch a Packet from Liverpool at least every five days, thus preventing any delay whatever at that port.

The Ships comprising the above Lines are already well known to be all of the first and largest class, commanded by the most experienced men, in the different trades, are fitted up strictly with an

of every grade, and will sail punctually of days.

W. & J. T. Tapscott & Co. can confidently assert that they now possess facilities for carrying on the Emigration business between the Old and new World, superior to any other establishment in the country, and through their own exertions and the combined efforts of William Tapscott & Co., of Liverpool, their numerous customers may rest assured that the greatest punctuality will be noticed and perfect satisfaction given in every branch of their business.

REMITTANCES TO ENGLAND, RELIAND, SCOTLAND, AND WALES. The subscribers supply Drafts for any amount from £1 upwards, drawn direct and payable at the National Bank of Ireland and Branches, Exchange & Discount Bank, and Wm. Tapscott & Co., Liverpool; National Provincial Bank of England, Bank of Scotland and Branches, Messra. James Butt, Sons & Co., London. All of which are paid on demand, without discount or any other charge.

Persons residing in the country and wishing to send money to their friends, may insure its being sent satisfactorily, on their remitting to the subscribers the amount they wish sent, with the name and address of the person for whom it is intended; a draft for the amount will then be forwarded, per first sailing Packet or Steamer, and a receipt for the same returned by Mail.

Persons having money in the Old Country which they wish to receive, without the expense of going for it, may get it safely transmitted by its being deposited with Wm. Tapscott & Co., Liverpool, and an order from them for the amount will meet promt payment here.

TO EMERANTS FOR THE FAR WEST.

W. & J. T. TAPSCOTT & CO. having the most extended arrangements for conveyance of passengers from New York to the Far West of any house in the trade, they are enabled to offer them any mode of conveyance, whether railroad, canal, or steamboat, and that at prices as low as are usually paid for the worst possible conveyance, and with a certainty of their not being subjected to any delay or imposition on the route.

FURNISHING MAIL LOCKS AND KEYS.

FURNISHING MAIL LOCKS AND KEYS.

Post OFFICE DEPARTMENT, 
March 14, 1851. 

If being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength. For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adopted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentee will be required, on entering into contract, on make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may select, and also the right of contracting with different individuals for such different kinds of locks as he may sel

HUNT'S MERCHANTS' MAGAZINE

AND COMMERCIAL REVIEW. Established, July, 1839, BY PREEMAN HUNT, EDITOR AND PROPRIETOR.

THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been enlarged since its commencement in July, 1859, and each volume now contains more than seven hundred large octave pages. A few complete sets of the Magazine may be obtained at the publisher's office, 142 Fulton street, New York, neatly and substantially bound, for two dollars and a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine from distinguished statesmen:

from distinguished statesmen:

Letter from the Hon. Henry Clay.

Assnawd, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirons to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfies the desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no heeitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and arranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the mest valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible

where so well digested and so accessible as in these numbers. I only regret that I do not own the whole work. Letter from the Hon. Thomas H. Benton.

Washington Cirry, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchants' Magazine, and have found it in reality to be a majazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchants' magazine in the large acceptation of the term—merchants who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant, THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward.

Letter from Hon. Wm. H. Seward. My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchante' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the government.

WISE & BROTHER, Manufacturers of Boudoir, Grand, and Square Pianos, request those who would be assured of a first class Plano, one that ladies can perform on with the greatest possible advantage—one that the touch can be instantly adjusted to the exact strength of the fingers and movement of music, one that will stand in concert tune, one that the tone will not become shrill and grating, that is chaste of style and elegantly made up of straight and regular curve lines, that will last an age—to give them a call. The ancient standing of the Baltimore Factory, and liberal patronage of citizens and others of the first order of artistic taste and science, conceded at once the most critical, have been fully anticipated. Their recently finished Grand Piano, minutely reviewed by the most accomplished civil engineers and master artists, has been denominated truly a Grand Piano; also, that their late Boudoir, for style, power, and compass of tone, is not surpassed, if equalled, in the world. COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Messrs. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Eric, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extra expense, and is sufficiently capacious to accommodate seventy-five patients.

A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of a simple and remarkably effective mode of curing the sick; for that system of drugging, depleting, and cauterising, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of the various Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great traths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.
